PROFESSIONAL EXPERIENCE

Qen Labs

Feb 2024 – Present

Full Stack Developer

Remote

- **Cloud-Native Geospatial Systems:** Architected a visualization platform for environmental data using **PostGIS** and **GCP Cloud Run**, enabling interactive mapping and real-time data creation.
- **Data Engineering:** Designed 24/7 automated pipelines for **GeoJSON** vector tile creation, reducing manual processing time and supporting live spatiotemporal summarization.
- **API & Infra:** Deployed production-grade infrastructure on **GCP** using Docker and Linux VMs; built secure, user-facing APIs supporting complex geospatial queries.

Professos

Jun 2023 – Aug 2023

Full Stack Intern

Remote

- Developed a **MERN stack** recruitment portal to match students with job roles based on skills and performance metrics.
- Redesigned frontend with **Tailwind CSS**, improving system aesthetics and reducing page load times by 20%.

Gurugram Police (GPCSSI)

Jun 2021 – Jul 2021

Cybersecurity Intern

Remote

- Researched and documented emerging cyber threats including phishing and ransomware.
- Gained exposure to **Penetration Testing**, OSINT, and digital forensics reporting.

KEY PROJECTS

Algorithm Visualizer

visualiz.vercel.app

React, JavaScript, Vercel

Ongoing

- **Visual Computing:** Built an interactive platform for visualizing Dijkstra, BFS, and DFS with dynamic obstacle placement.
- **Sudoku Engine:** Implemented a seed-based generator using deterministic algorithms, enabling users to recreate and share specific puzzle configurations via unique seeds.

Budget Management App

Personal Project

MERN Stack, MongoDB, Node.js

- Developed a financial tracking system featuring automated recurring bill reminders and salary management dashboards.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), Python, SQL, C

Frameworks: ReactJS, Next.js, Express, Node.js, PostGIS, Tailwind CSS

Databases/Cloud: PostgreSQL, MongoDB, GCP (Cloud Run, GCE), Docker, Linux

Tools: Git, Postman, VS Code, Notion

EDUCATION

Indian Institute of Information Technology (IIIT), Kota

Dec 2020 – June 2024

Bachelor of Technology in Electronics and Communication

Kota, Rajasthan

KEY ACHIEVEMENTS

- **ACM Publication:** Lead Author of "MapYog - Intelligent Spatiotemporal Data Explorer" (2024).
- **Problem Solving:** Solved **1000+** problems across LeetCode/Codeforces with about 90% accuracy.
- **Hackathons:** Winner at Codeshastra 8.0 for developing a geolocation-based facial attendance system.
